

Sample Site Plan

If your parcel is located within a Commercial or industrial subdivision, the proposed site plan must be provided by a professional (i.e. licensed surveyor).

Metres or feet are accepted.
Please use units consistently.

A setback means the distance between the structure and the property line.

Site Plan Checklist

- ☐ North Arrow
- ☐ Street name(s) and alleys
- ☐ Existing structures with dimensions
- ☐ Proposed structures with dimensions (shaded or cross hatched)
- ☐ Height of proposed building(s)
- ☐ Distances between proposed and existing structures
- ☐ Setbacks (rear, front, side) from property lines to building(s)
- ☐ Dimensions of Lot
- ☐ Property elevations (if available) at property corners
- ☐ Direction of drainage (using arrows to show downslope)
- ☐ Right-of-way(s) and easement(s)
- ☐ Driveway location

Provide your own site plan or use this page to draw one. Refer to the checklist to ensure all site plan requirements.

Plan: _____ Block: _____ Lot: _____ Street Address: _____

Measurements: ☐ Feet ☐ Metres
